

FRIEND FOR LIFE
by G. A. Kowatch

Verse 1

When people laughed at me
You always gave me strength
To stand up tall and be myself

I want to thank you

Verse 2

When I wished for a dream
You made me realize
That I can reach beyond the stars

I want to thank you
I want to thank you

Chorus

You are my friend, my friend for life
Someone who loves me as I am
You shine your love into my heart
And make me one with your bright light
Let's be together now

Verse 3

When I was being a fool
You showed me how to be
By being kind and loving me

I want to thank you

Verse 4

When I didn't like myself
You taught me how to love
By showing me, I'm made of love

I want to thank you
I want to thank you

Chorus

You are my friend, my friend for life
Someone who loves me as I am
You shine your love into my heart
And make me one with your bright light
Let's be together now

FRIEND FOR LIFE
by G. A. Kowatch

Bridge

The past is gone
The future isn't here
All we have is now
There is no other time
Forgiveness heals all wounds
Leaving only love
Love is who we are
Love is all there is

Chorus

You are my friend, my friend for life
Someone who loves me as I am
You shine your love into my heart
And make me one with your bright light
Let's be together now.

My best friend
My friend for life
